CropCare® bale movers are a long-lasting, practical investment for your farm operation. Choose from round or square bale movers as well as optional rack kits and attachment options.

Standard Features
- Wide base to prevent tipping when standing alone
- Heavy-duty frame

Bale Frame Options
- **HT250R**
  Round bale frame (2,500 lbs capacity)
- **HT300S**
  Square bale frame (3,000 lbs capacity)
- **HT400S**
  High capacity square bale frames (4,000 lbs capacity)

Back Rack Options
- **HTR300**
  Back rack for all bale movers
- **HTR400**
  High capacity back rack for HT400S

Attachment Options
- **Universal / skid loader quick-attach**
  All bale mover frames are designed with the universal quick-attach
- **Quickie / European style / global quick-attach**
  Available for all bale mover frames with purchase of the quickie kit (HTQK)
- **3PT hitch attachment**
  Available for all bale mover frames with purchase of the 3PT kit (HT3PT)
Liquid Applicators

CropCare® liquid applicators are designed for use on balers, baggers, and other equipment to apply liquid inoculants and preservatives. These applicators are versatile to cover many different crops and application rates and are easily mounted on most equipment.

25 Gal Manual Liquid Applicator
- Shurflo® diaphragm pump
- Manually adjustable pressure relief valve
- 20’ wire harness with switch box
- High-quality pressure gauge
- Universal plumbing and hardware kit

25 or 40 Gal Electric Liquid Applicator
- Shurflo® diaphragm pump
- Electronic remote pressure control box
- 30’ wiring harness
- High-quality oil isolated, 4” pressure gauge with stainless steel mounting bracket
- Universal plumbing and hardware kit

DA1221 Drum Applicator
CropCare® drum applicator is mounted on a long-lasting powder coated frame that hangs onto your chemical drum. It uses a 2.1 GPM Shurflo® diaphragm pump, 12’ spray hose, in-tank filter, a 16’ power supply wire and includes a universal plumbing and hardware kit.
FOAM MARKERS
CropCare® foam marker systems are great tools for increasing accuracy and efficiency, whether you are spraying or using a no-till drill or planter. Large visible foam marks save time and money by reducing overlap and skips. CropCare® foam markers are the smart choice if you are in the market for a well performing unit at an economical price.

5 Gal Foam Marker
This system is designed for sprayer booms up to 60’ and speeds of up to 5 mph. It comes with a 25’ wiring harness and a tractor mounted control box.

2.5 Gal Turf Marker
Turf markers are designed for use on lawns, turf, or pastures. The turf marker simultaneously produces foam marks from two drop tubes. These foam markers are perfect for small 3PT sprayers and ATV sprayers. Turf marker systems work well on sprayer booms up to 30’ and with speeds up to 5 mph.

FOAM INJECTION MARKER
**Foam Injection Marker**

CropCare® F1000I foam injector system with high volume and long run time makes this unit a good choice for larger sprayers or commercial applications with booms up to 90’. The control box and wiring harness are included. It requires a fresh water source and related plumbing components that are not included.

**Features**

- Uses separate air compressor and liquid pump for increased foam
- Has flow meter to aid operator in manually controlling foam concentrate rate
- Holds 2.5 gal of pure foam concentrate rather than a foam and water mix
- Uses approximately 3 gal of water
- Uses .25-1 gal of foam concentrate
- Connect to a fresh water source (components not included in kit)
